

2020-2019 MOLOKAI OHANA HEALTH CARE INC.

Mission To provide and promote accessible comprehensive individual and community health care to the people of Molokai with respect and aloha.

Vision All people have optimal physical, mental, and spiritual health.

Values All that we do will be rooted in A'o Laulima Olakino Hanohano 'Aina (ALOHA).

Molokai Community Health Center (MCHC), is a Federally Qualified Health Center on the island of Molokai, Hawaii which was established in 2002, and opened its doors in March 2004. MCHC is a 501(c)3 not-for-profit that provides primary health care, dental health care, behavior health care, WIC, and enabling services. MCHC provides accessible, affordable health care to over 2,300 patients per year. In 2019, MCHC had a total of 5,480 medical visits, 3,048 dental visits, and 364 behavioral health visits. A total of 47% of MCHCs patient base is 19 & under, and 15% are 65 & older.

Community Need

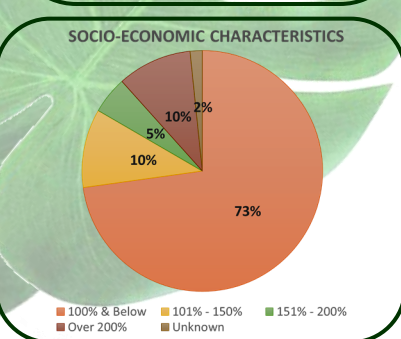

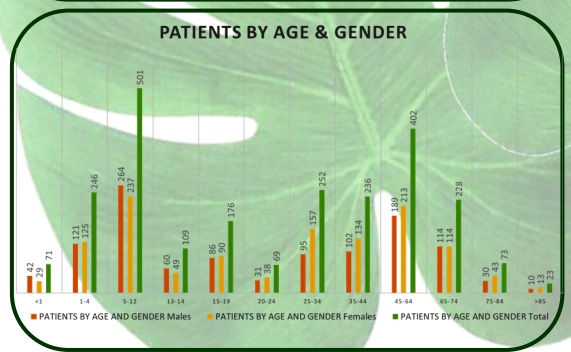

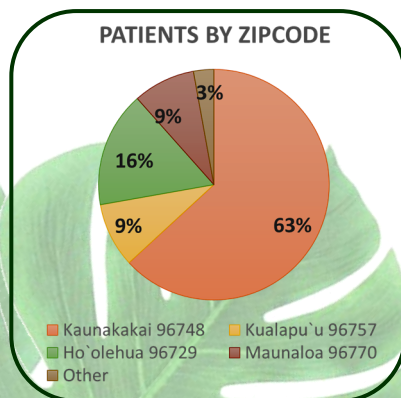

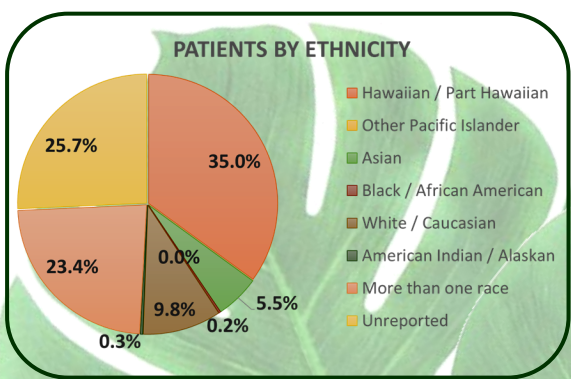

The major health care challenges of the target population include maternal and child health risk, baby bottle tooth decay, childhood asthma and obesity, teen substance abuse, and chronic health conditions in adults, including diabetes, asthma, heart disease, high blood pressure, obesity, behavioral health illnesses and substance abuse.

Also, Molokai has an unemployment rate of 4.9% and about 7% of the island is uninsured. It is also reported that 40% of the population that rely on subsistence farming, hunting, and fishing.

This data was collected from our Community Assessment 2019 to improve our understanding of community health as communicated by the Molokai community, with the ultimate goal of better shaping our programs and services to fit the community's needs.

- ◆ Ho'oponopono

Wrap-Around Services & Leadership

- ◆ Environmental / Food Based Partnerships
- ◆ Farm Fresh Food Pantry and Distribution
- ◆ Telehealth Advancement in Specialty Care

*According to 2019 MCHC Patient Profile & Statistical Data

What are Federally Qualified Health Centers (FQHC)?

Federally Qualified Health Centers are the largest “safety net” providers in Hawaii, serving over 67,000 patients annually. Wherever they’re located, community health centers are about helping people remove barriers and gain access to the health care they need.

What is a Patient-Centered Medical Home (PCMH)?

With a commitment to providing the best medical care based on individual health needs, MOHC has achieved Level 3 PCMH (patient-centered medical home) recognition in May 2015.

The National Committee for Quality Assurance’s (NCQA) PCMH recognition program follows a set of comprehensive standards to facilitate partnerships between individual patients, their personal physicians, and when appropriate, the patient’s family, to support a team based approach to care.

The patient-centered medical home (PCMH), is a team based health care delivery model that provide comprehensive and continuous medical care to patients with the goal of obtaining maximized health outcomes. PCMH offers a high standard of service to our patients and clients.

FY2018-2019 Financial information was prepared in accordance with Generally Accepted Accounting Principles (GAAP). This information was audited.
